

MD. Samrat Hossen

Software Engineer

 nayakemily50@gmail.com  [Samrat Hossen](#)  [SamratEmily](#)  [Samrat](#)  [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Software Engineer with extensive experience in **WordPress plugin development**, **Laravel backends**, and **React.js frontends**. A competitive programmer at heart with a track record of building 25+ e-commerce platforms and custom API integrations. Committed to engineering efficient, secure, and user-centric web products.

PROFESSIONAL EXPERIENCE

Software Engineer

At weLabs Ltd. - Sister Concern of **weDevs Ltd.**

05/2024 – present

EDUCATION

B.Sc Engineering (Computer Science and Engineering)

Comilla University

CGPA: 3.71 Out of 4.00

03/2018 – 01/2024

Cumilla

SKILLS

- **Programming Languages:** C, C++, PHP, MySQL
- **Frameworks & Libraries:** React.js, Vue.js, Laravel
- **Web Technologies:** HTML, CSS, JavaScript
- **Other:** WooCommerce, Dokan, WePos, API Development

PROFESSIONAL PROJECTS

FajrFair - Online Books Store

Technologies: HTML, CSS, Js, PHP, MySQL -> *Tools:* Figma

Built an online bookstore website from a **Figma** design, turning it into a functional multi-page e-commerce platform with smooth browsing, easy checkout, and features to boost user engagement and sales, using **WooCommerce**.

SoHa-Living

Technology: Wordpress, PHP

I built numerous **REST API** in this Project. This plugin helps us to manage as a project manager, HR manager, Community Manager, and Portfolio Manager.

Booxos

Technologies: WordPress, PHP, Vue.js

I've worked with Vue.js to generate and download PDFs using **vue-html2pdf** . Here, I've customized numerous settings under **WooCommerce**, **WePos**, and **Dokan** plugins.

Vengo

Technologies: Wordpress, PHP

Customized automated financial tools, flexible **coupon** management, and a **cron job scheduler** to improve efficiency, using **WooCommerce** and **Dokan**.

Exernium

Technologies: WordPress, PHP -> *Tools:* Postman

I've developed some **REST API** to customize **WooCommerce** and **Dokan** plugins. And so these API are used in a **Mobile App**. All Api are tested in **Postman**.

Bazaarica-Kozmetica

Technology: Wordpress, PHP

In this project, I extend some features of **WooCommerce**, and **Dokan** plugins.

I've also worked 25+ e-commerce websites based on WooCommerce, Dokan, WP Project Manager and WePos Plugins

PERSONAL PROJECTS

Email Logs

WordPress Plugin | Email logs | PHP

This plugin logs all emails triggered by wp_mail. **Published on wordpress.org** 

Profit Calculation

WordPress Plugin | WooCommerce | PHP

This plugin includes an admin dashboard where I'm showing the total profits of one's e-commerce business. Here, we added a feature based on WooCommerce. **Published on wordpress.org** 

Website Cache Plugin

WordPress Plugin | Website Cache | PHP

A powerful and lightweight caching plugin for WordPress that dramatically improves website performance through intelligent page caching and code minification. **Submitted to wordPress.org for review.** 

URL Blocker

WordPress Plugin | URL Blocker/Redirect | PHP

I built a lightweight plugin to block or redirect URL. We can use it to control url instead of wordfence.

Sohoj Biye

Technologies: Laravel, React.js

Developed a trusted platform for the marriage of Bangladeshis.

- Engineered a high-trust matrimonial ecosystem featuring **NID-based document verification** to restrict fraudulent profiles.
- Developed a centralized **Complaint Management System** allowing users to report suspicious activity, ensuring a safe and respectful environment for all members.
- Built a dynamic discovery feed for biodata matching and a **permission-locked chat system** that only activates upon mutual proposal acceptance.

Donation - A fundraising Platform

Technologies: Laravel, React.js

Developed a full-stack donation/fundraising platform built with a React.js frontend and a Laravel backend.

- Create donation campaigns with custom links
- Display campaign details with progress tracking
- Multiple payment methods support
- User-friendly donation interface

PROBLEM SOLVING EXPERIENCE

- Participated in at least 7+ national and regional level programming contests including NCPC, ICPC preli.
- Participated in at least 150+ online programming contests in various OJ including codeforces, atcoder etc.
- Solved at least 1500+ problems in different Online Judges i.e. Codeforces, LightOJ, Leetcode, Spoj, etc.

CONTEST ACHIEVEMENTS

7th - CoU Intra Programming Contest - 2019 (IUPC), Team: CoU_3_Dimension

12th - NWU CSE FEST - 2023 (IUPC), Team: CoU_LastShot

12th - Intra CoU Programming Contest 2020, Team: CoU_3_Dimension

17th - Britannia University Inter University Programming Contest 2020(IUPC), Team: CoU_3_Dimension

29th - CoU CSE Fiesta 2018 - Inter University Programming Contest (IUPC), Team: CoU_3_Dimension

33th - Independent University INWED_TECHFEST 2019(IUPC), Team: CoU_3_Dimension

45th - Tech Carnival 1.0, CUET - 2021 (Regional), Team: CoU_3_Dimension

137th - NCPC 2023, Team: CoU_LastShot

Actively seeking opportunities at top-tier companies to contribute, grow, and innovate.
